

Greetings from

CALIFORNIA

Fight for Resiliency!

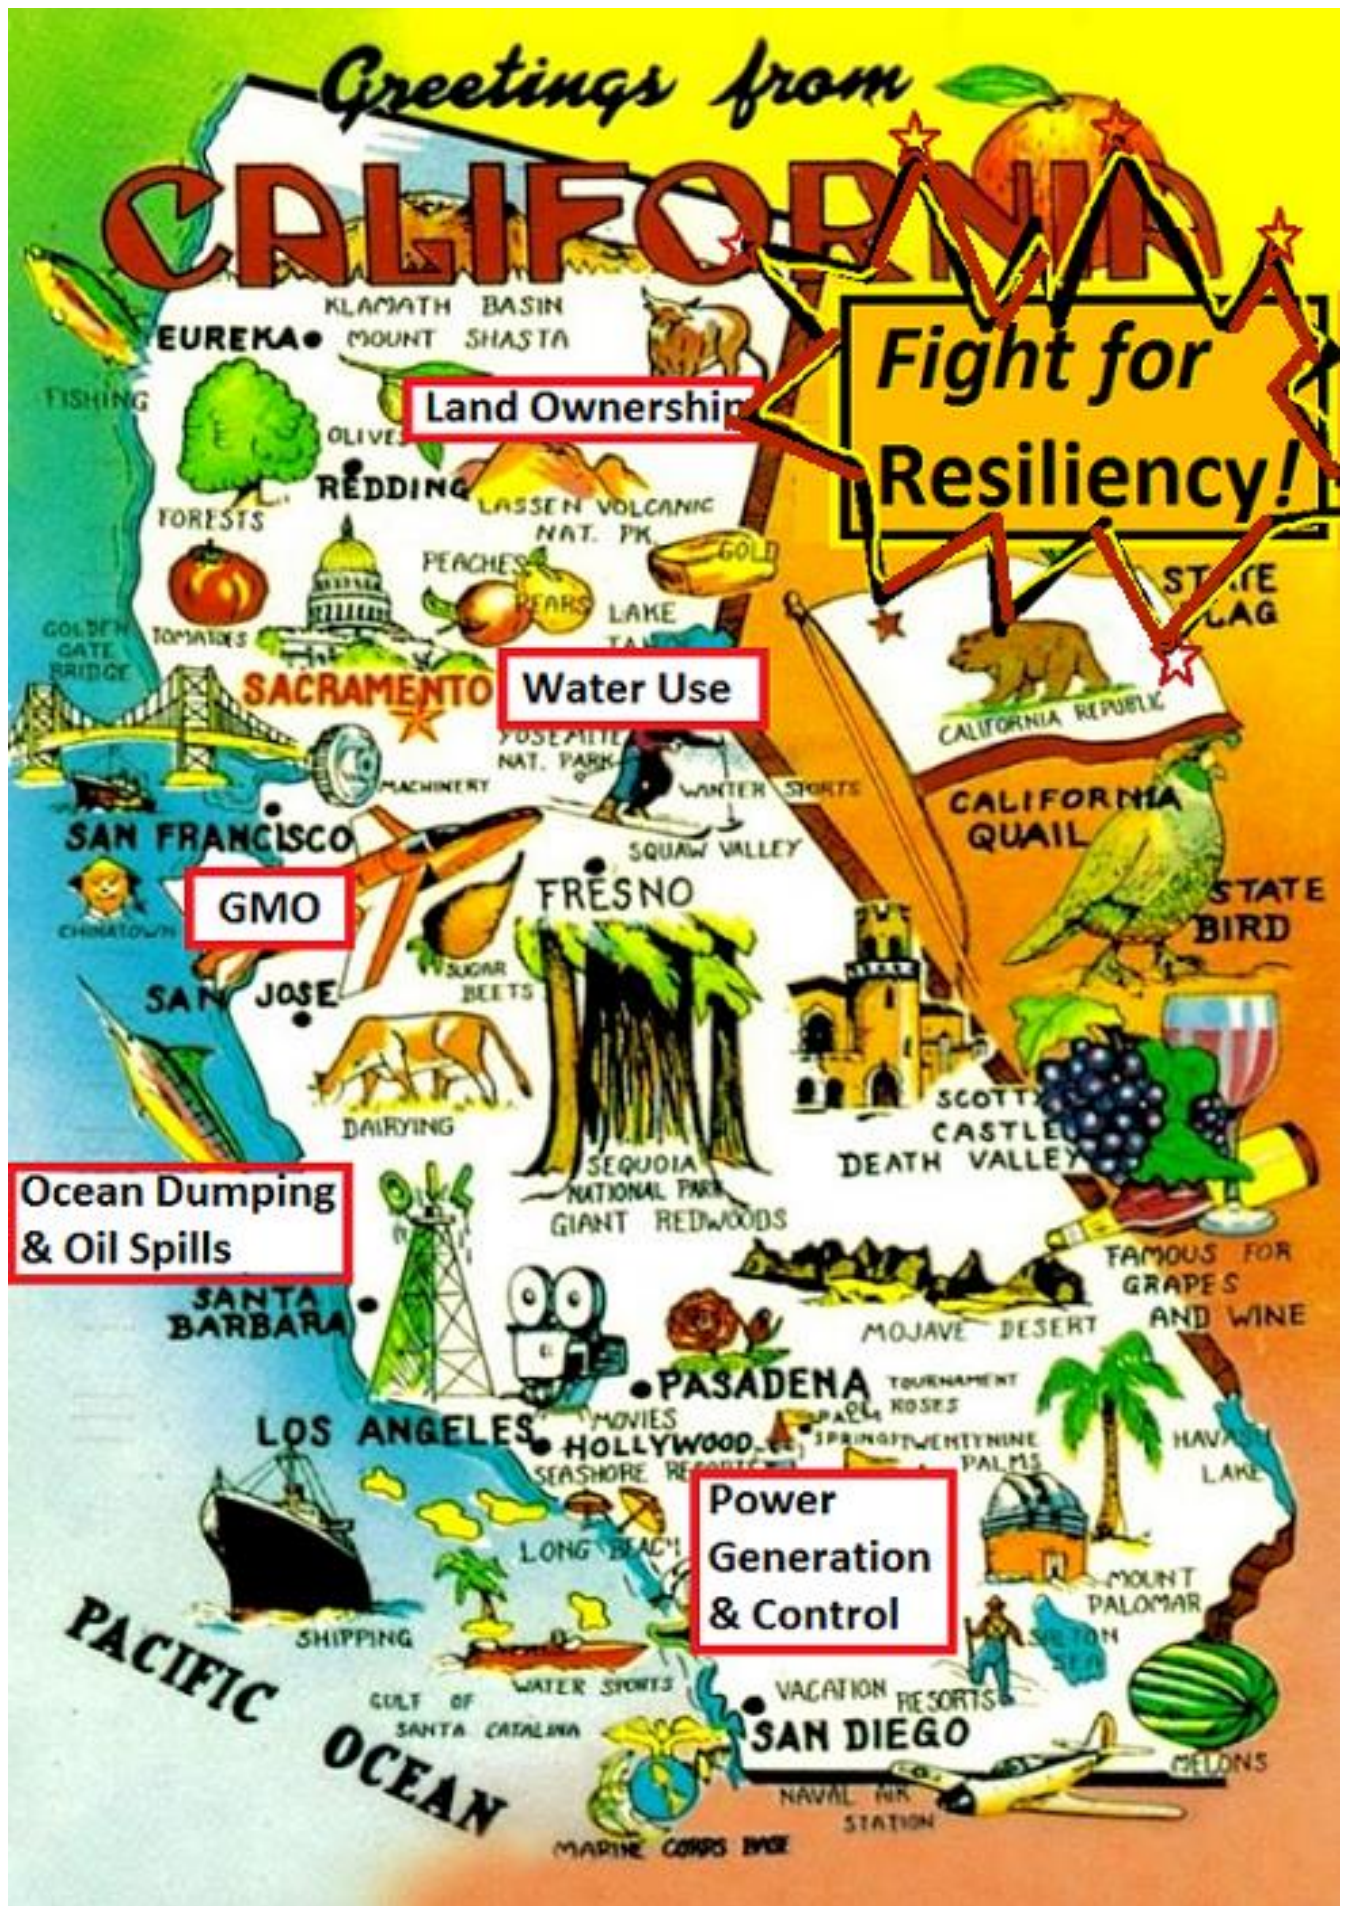

Land Ownership

Water Use

GMO

Ocean Dumping & Oil Spills

Power Generation & Control

“Fight for Resiliency” – “Transitionites vs Profiteers” - A Video Game Concept for Permaculture & Transition Players. By Willi Paul, [PlanetShifter.com Media](http://PlanetShifter.com) (+PDF)

How to Play:

1. Select a Team and communicate with other members: Transitionites vs. Profiteers
2. Choose a Hot Spot
3. Develop tactics to control resources
4. Implement strategy
5. Evaluate results and create report
6. Get points from Admin

Settlement Types:

Transitionites - Small Unsecure Rural Camp Sites
Profiteers - Huge High Security Urban Compounds

Five California Resource Hot Spots:

- + Water Use
- + Ocean Dumping and Oil Spills
- + GMO Foods
- + Land Ownership
- + Power Generation and Control – Nuclear & Fracking

Dominate Values

- + Profiteers: Greed, Short-term Pro- Profit
- + Transitionites: Sustainable, Nature-centric, Sharing

Suggestions on How to Score Points:

+ Profiteers –

- + Take and profitize resources for private gain
- + Take control of public resources like rail and highways
- + Barricade water canal system for Big Ag
- + Electrical Utility - Continue to install meters

+ Transitionites –

- + Condense fractious groups into one super group
- + Localization Points
- + Take over unused lands for food production
- + Or share resources for public good
